Growing up it was my dream to actually NOT work in this industry. BUT, at 27, here I am and I could not imagine my career going any other direction.

When people ask me how long I have been in this industry, I say “since birth”. That’s right, I have literally been around this great industry since I was born due to the fact that my father was in this industry since he graduated college. I remember mom pulling me out of school early when High Point Market was in town so we could see Dad at work during market. We NEVER rented our house out because dad wanted to come home to his family and not come home to market after a long day at market. By the time it came for college graduation, I was ready to enter into any profession except the Home Furnishings because it had been my playground for so many years. After attending the spring High Point Market, in particular the WithIt Networking Tent Event, I realized the Home Furnishings industry was my Home...it was my family and that WithIt was there to support me as a young professional. At that point in my life, I had played ‘Daughter’ at market for 22 years but now it was time to utilize the power of WithIt and find a job post-graduation.

Six years later, I am still here and don’t plan on leaving ‘my family’. WithIt opened so many doors for my career, I will forever be grateful!
